

Learn About Mobility Solutions and Earn CEU Credits for Free

Advocating Automotive Mobility for your Clients: Driver Rehabilitation and Automotive Mobility Solutions Course (AAM)

The National Mobility Equipment Dealers Association (NMEDA) is offering an introductory level online CE course to help healthcare professionals understand automotive mobility solutions for patients with disabilities. By learning about automotive vehicle modifications, health professionals will be able to suggest options for caregivers or patients who want to drive but need accommodations. Topics covered include learning about the importance of Mobility and Related Services, Driving as an Instrumental ADL, Diagnosis, Assessment, and 5 Real-life Case Studies.

NMEDA's AAM Course is:

- Offered online, for your convenience
- AOTA, ADED, CCMC pre-approved for **.15 CEU** (1.5 Contact Hours)
